

June 27-30, 2017

Essen, May 4, 2017

In the Shanghai New International Expo Center from June 27 to 30, 2017:

Historic Anniversary for BEIJING ESSEN WELDING & CUTTING

Already for 30 Years, the Leading Trade Fair for the Asian Region

Asia's most significant trade fair for the sector encompassing joining, cutting and surfacing technologies will celebrate the 30th anniversary of the original fair called Beijing Essen Welding: From June 27 to 30, 2017, BEIJING ESSEN WELDING & CUTTING will take place in Shanghai. Around 1,000 exhibitors from 30 countries will present their products and services in the Shanghai New International Expo Center. These will include not only installations and equipment but also systems for computer-assisted fabrication, measuring technology and the equipping of workplaces.

In China (the largest steel nation in the world), there is a strong demand for products relating to all aspects of joining, cutting and surfacing. BEIJING ESSEN WELDING & CUTTING will offer the visitors an ideal platform in order to obtain information about systems for computer-assisted fabrication and equipment for the processes in joining, cutting and surfacing technologies right up to the safety-relevant equipping of workplaces and the measuring technology needed for exact working, to exchange ideas or to place orders directly. As one of the largest sectoral fairs in the world, BEIJING ESSEN WELDING & CUTTING has positioned itself as an indispensable, international platform.

The Interdependence with the German and European Markets

For foreign companies, BEIJING ESSEN WELDING & CUTTING is an important platform in order to introduce themselves in this Asian growth region and to intensify business relations. Numerous international cooperative booths will offer firms the possibility of giving the trade visitors compact overviews of their services. On the cooperative area of the Federal Republic of Germany which will be promoted by the Federal Ministry for Economic Affairs, many renowned manufacturers will show products and services "Made in Germany".

BEIJING ESSEN WELDING & CUTTING will be staged in cooperation between Messe Essen (organiser of the premier global fair, SCHWEISSEN & SCHNEIDEN), the Chinese Mechanical Engineering Society and the German Welding Society (DVS). The partners are organising a specialist supporting programme in 2017, too. In forums, experts will thus take up topical subjects in the sector and will pass on their knowledge. In the meantime, BEIJING ESSEN WELDING & CUTTING is far more than a pure product show. It has developed into an important communication platform for the exchange and transfer of knowledge.
